I. GENERAL COMMENTS

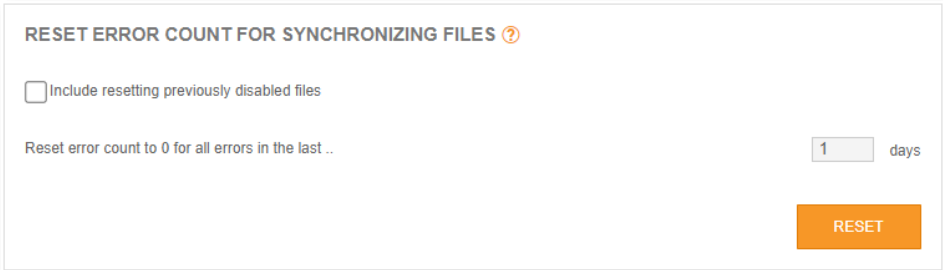

This document lists the new features in ConArch v1.9 including those of ConArch v1.8 and is based on ConArch build number *Version 1.9 B2103.2901*.

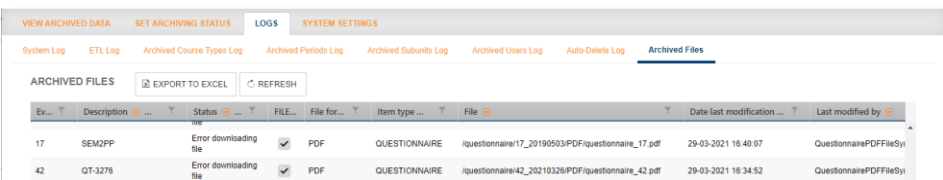

This ‘What’s New List’ contains the most important new features and improvements with reference to applicable ID numbers (as further specified in the Release Notes of ConArch v1.9), a short description and possible user benefits. Additionally, a list of fixed defects is included.

II. LIST OF NEW FEATURES AND IMPROVEMENTS

FUNCTION	DESCRIPTION	BENEFIT
Support for EvaSys v8.1 B2250 <i>(OTF3229, et. al.)</i>	Added support for EvaSys v8.1 B2250 (preferred) in addition to v8.0 B2201 and B2202.	Customers running EvaSys v8.0 B2201/B2202 can now upgrade to v8.1 B2250.
		

FUNCTION	DESCRIPTION	BENEFIT
Improved instant notifications <i>(OTF3259 et. al.)</i>	ConArch will send out only 1 instant notification per process per day.	Avoids overflow of email alerts in case a process with complications contains repeating actions.
		

FUNCTION	DESCRIPTION	BENEFIT
Reset error count <i>(OTF3268)</i>	The user is now able to reset the error count for downloading files, making it possible to download a file after the maximum of 3 failed attempts. Also available for the auto-deletion of elements.	A correction mechanism.
		

FUNCTION	DESCRIPTION	BENEFIT
Disable downloading a file <i>(OTF3271)</i>	The user is now able to disable the download of files when knowing the originating surveys or questionnaires are no longer present. ConArch will stop trying to download the files and indicate the disabled status.	Avoiding useless operations, improved status information.
		

FUNCTION	DESCRIPTION	BENEFIT																																																
<p>ConArch grid shows by updated icons the status of the related file download</p> <p>(OTF3292)</p>	<p>New icon coloring has been implemented to show the availability and downloading status of a file. Thus the user can easily see whether a file is available or not (yet) available due to a disabled or failed download.</p>	<p>Better overview, better understanding of file status.</p>

FUNCTION	DESCRIPTION	BENEFIT
<p>Upgrading ConArch uses current settings</p> <p>(OTF3891, et. al.)</p>	<p>Installer improved for updating a current, working environment. The installer queries the current settings instead of using previous installer info.</p>	<p>Ensures a seamless update of a current, working environment.</p>

FUNCTION	DESCRIPTION	BENEFIT
<p>Sync performance</p> <p>(OTF3025)</p>	<p>In ConArch v1.8 the complete process of synchronizing the archive with a new evasys database dump has been improved.</p>	<p>Better performance.</p>

III. SOLVED DEFECTS

ConArch v1.9

DEFECT	DESCRIPTION
4069	Typo for 'questionnairerange' field in [ConArchArchive].[dbo].[Questionnaires].
4532	Date filters in the grids don't behave properly.
4460	Font size is shown in px instead of points.
4467	Services do not automatically start after installing ConArch.
4583	[UI] Save button by section in SystemSettings>ConnectionSettings.
4536	Sync Service needs two executions to process all the items after having completed the queue.

ConArch v1.8

DEFECT	DESCRIPTION
4579	[ETL Package] Missing records in ReportRecipients.
4589	[Auto-Delete] Is trying to delete users from subunits 'static archived by period'.
4599	[ETL] PK Error when updating an archived Course that changed from Period=0 to Period!=0.
4600	[ETL] Courses and Surveys from subunits static archived by period are updated when changed in EvaSys.
4603	[ETL] When a User is changed to StaticArchive, the ETL delete the surveys of this one user.
4604	Surveys with a period other than the repeating period of the main Course, do not queue.
4605	[Auto-Delete] Surveys without courses are not being enqueued to auto-delete.
4606	[Auto-Delete] A user who still has reports is deleted.
